

trimming_paired_end

```
graph TD; trimming_paired_end --> bowtie2_paired_end; fastqc --> all; bowtie2_paired_end --> all;
```

A flowchart with four nodes in rounded rectangles. The top node is 'trimming_paired_end' with a blue border. An arrow points down to 'bowtie2_paired_end' with a green border. To the left is 'fastqc' with a red border. Arrows from 'fastqc' and 'bowtie2_paired_end' point down to 'all' with a yellow border at the bottom.
